2017 CAMP Summer Science Academy

PROGRAM DESCRIPTION

LSAMP-CAMP OVERVIEW

The University of California, Irvine is the lead UC campus for the National Science Foundation (NSF) program, the Louis Stokes California Alliance for Minority Participation (LSAMP-CAMP) in Science, Engineering, Mathematics and Computer Sciences. The objective of LSAMP-CAMP is to ensure that students successfully complete their Bachelor of Science degree and obtain an advanced degree.

SUMMER PROGRAM

The CAMP Summer Science Academy (CSSA) for entering freshmen is a program that prepares incoming freshmen for the transition from high school to UCI. Students live on campus and enroll in a university level course. This Academy has been offered for the past 25 years. The program has been designed to:

- Enhance the academic preparation of students for a competitive university life
- Provide students with strategies for success: studying skills, time management, study groups, computer tools, note taking and exam preparation
- Orient students about career options and research opportunities

PROGRAM COMPONENTS

- E98 Critical Thinking for STEM Majors (2 unit course)
- Introductory Chemistry
- Physics
- Introductory Biology
- Math (two levels)
- A writing course

ELIGIBILITY

Participants for the CSSA must meet NSF criteria:

- Freshmen majoring in Biological Sciences, Physical Sciences, Engineering, Information and Computer Sciences, Pharmaceutical Sciences, and Public Health Sciences - Not Public Policy
- Chicano/Latino, African-American, Native American, or Pacific Islander: Aleutian, Marshall, Hawaiian Islands, and Alaska Natives
- Permanent Resident or U.S. citizens

AWARDS AND BENEFITS

The CAMP Summer Science Academy for entering freshmen is an academically challenging experience. Selected participants will receive the following benefits:

- Financial support to cover tuition, fees, room and board for the CSSA Program, either through financial aid or a fellowship
- Opportunity to meet faculty and learn about their research
- Academic Counseling
- Academic experience in a university setting, taking advantage of summer's smaller classes and more relaxed atmosphere
- Opportunity to concentrate in courses that are critical for the student's careers

APPLICATION PROCEDURE:

1. Application
2. Student Contract/Liability Release Form
3. A two-page essay indicating interest in the program (see application form)
4. \$450.00 fee (checks payable to "UC Regents", fee waivers available for financial aid eligible students)

Ask a teacher to fill out the recommendation form and have him/her mail it to us directly in the enclosed self-addressed envelope.

APPLICATION DEADLINE

Postmarked by Monday, May 15th

If not accepted, checks are promptly refunded.
