CAMP Student’s Educational Road Map

**Freshman**
- CAMP Tutoring
- LARC Tutoring
- OAI
- CAMP Research Scholars (Summer)

**Sophomore**
- CAMP Research Scholars (Summer)
- CAMP Tutoring
- LARC Tutoring
- SAGE Scholars Program
- OAI
- UROP
- MSP (Summer)

**Junior**
- CAMP Summer Research Scholars
- CAMP Mentoring
- SAGE Scholars Program
- GRE Prep Workshop
- Take the MCAT
- OAI
- UROP
- MSP

*Apply for Internships

**Senior**
- CAMP Mentoring
- SAGE Scholars Program
- GRE Prep Workshop
- FE Exam
- OAI
- UROP

More Information on back side...
California Louis Stokes
Alliance for Minority Participation

1) CAMP Summer Research Scholars
   a) Gives CAMP students the opportunity to conduct scientific research with faculty mentors and present research at various conferences.
   b) 10-week duration with a stipend reward upon the submission of a research paper.
   c) Must be CAMP eligible, have a 2.5 GPA to apply, and be in their 3rd or 4th years (rising sophomores may be considered).

2) CAMP Mentoring/Tutoring
   a) Mentors assist students with their classes and give advice about course load and resources.
   b) Students can also apply to be mentors in their 3rd or 4th years (rising sophomores may be considered) and be awarded a stipend at the end of the quarter for their service.

3) LARC Tutoring
   a) LARC tutoring program helps undergrad students with classes in a small-discussion room environment, for a $110 fee. Classes are held quarterly. Contact Student Success Initiative (SSI) to see if you are eligible for a free LARC course.
   b) http://www.larc.uci.edu/

4) SAGE Scholars Program
   a) Works to strengthen the pipeline of talented and diverse students entering the workforce and to support them during their undergraduate careers.
   b) Provides undergraduates who have significant financial need with the tools to invest in their future through leadership, training, career and graduate school planning, and access to internship and scholarship opportunities.
   c) http://sagescholars.uci.edu/

5) GRE Preparatory Course
   a) A representative from Princeton Review provides the class with tips to score high on the GRE.
   b) Participants may be eligible to receive a reimbursement for their GRE Exam registration fee.
   c) 9-week duration, winter quarter. Generally, meet Tuesdays 5pm-8pm
   d) http://camp.uci.edu/services/

6) Fundamentals of Engineering (FE) Exam
   a) Passing the exam will allow students to be eligible for the Engineer-in-Training (E.I.T.) Certification in the State of California.
   b) Active CAMP student participants may be eligible for reimbursement.
   c) http://camp.uci.edu/services/

7) Office of Access and Inclusion (OAI, REC 200)
   a) Provides 1-on-1 tutoring in the CODE Room (REC 201); tutors are UCI graduate students.
   b) Directed by Sharnnia Artis, Ph.D., who plays a critical role in developing and supporting the overall success of students.
   c) http://camp.uci.edu/services/

8) Undergraduate Research Opportunities Program (UROP)
   a) Hold conferences every year. Gives money to students for research.
   b) Encourages and facilitates research and creative activities by undergraduates from all UCI academic disciplines.
   c) http://www.urop.uci.edu

9) Outreach, Research Training and Minority Science Programs (MSP)
   a) MBRS-IMSD, provides academic preparation to excel in college, paid research training, information about career choices, and opportunities for mentorship with biomedical researchers.
   b) MHIRT offers international research training opportunities to qualified undergraduate and graduate students from underrepresented groups in basic science, biomedical, clinical or behavioral health research career fields.
   c) http://port.bio.uci.edu/
