The TGR Foundation is recruiting an experienced educator to teach science classes at the TGR Learning Lab in Anaheim, California. The individual selected will enjoy an exceptional professional opportunity to provide support for an innovative Learning Lab concept that will serve as a model for other communities. If you love to explore new ideas and thrive in an environment that prepares young people for a future career, then check out this career opportunity.

**Our Goal**
The goal of the TGR Learning Lab is to provide youth with the right tools, instruction and environment that will allow them to explore, shape and clearly articulate—from a point of experience—their visions for their futures.

**Position Description**
Learning Facilitators report to Senior Managers and are responsible for developing and maintaining operational excellence with students, co-workers, volunteers and the general public. This is a part-time position in a science, career-based classroom. The individual selected will assume the position of an instructor and related duties for students in grades 5-6 as assigned.

**Essential Duties & Responsibilities**
Facilitate science learning experiences that engage students in problem-solving, critical thinking and reflective learning.

- Establish a culture of high expectations that includes college and career preparation for all students.
- Plan and deliver instruction of science learning experiences for students.
- Provide students and their families with regular and timely information on classroom activities and student progress.
- Demonstrate strong interpersonal skills consistent with a positive youth development environment.
- Identify unique student needs and collaborate with other team members.
- Interact effectively with co-workers, volunteers and the general public.
Qualifications

TGR Learning Lab Learning Facilitator preferably will have past involvement in educational programs for youth and experience in science. In addition to:

- Able to work Monday-Friday 8:00 a.m. to 1:00 p.m.
- Content knowledge and/or experience in science.
- Plan curriculum and procure materials and supplies for science activities.
- Familiarity with educational technology, knowledge of diverse student needs and different learning styles is essential.
- Ability to integrate technology creatively into lessons and activities.
- Support the TGR Foundation mission, vision, and core values.
- Have strong organizational skills, be a self-starter, and an excellent communicator both verbally and in writing.
